A Quad City Educational Event and Fundraiser
What Color is Your Cancer?

The Outing Club
2109 Brady Street
Davenport, IA 52803

4:00 – 6:00 PM

Personalized medicine for cancer treatment is a buzz word that we often hear but how do we bring the recent acceleration of laboratory findings to the patient diagnosed with cancer? Davenport native Dr. Laura Shawver, founder of [The Clarity Foundation](#), will share stories of her more than 25 years as a cancer scientist, biotech executive, cancer survivor and philanthropist. She will talk about how her first hand experience with ovarian cancer propelled her to set up a non-profit in order to answer the question, “What color is your cancer?”

Can't come but would like to [donate](#).

Thanks to gracious sponsorship from [Royal Neighbors](#)
